LOOKING FOR A PHILIPPINE SCANDAL

Martin Succeeds in First Move Against Attorney-General Wickersham.

WASHINGTON, April 28.—The house today adopted the resolution introduced early in the month by Representative Martin of Colorado, calling upon Secretary of War Dickinson for information regarding the sale of fifty-five thousand acres of the Friars Estate land in the Philippines to a representative of the Havemeyers and the sugar trust. In introducing this resolution, which calls upon the department for all the correspondence in the transaction, Martin made a sensational attack upon the attorney-general, intimating that the official's former position as counsel for the big sugar interests influenced his decision that the sale of this acreage to an individual was legal.

WAS NOT SIGNED UNTIL TUESDAY

President Did Not Affix His Signature to the Plebiscite Resolution April 21.

The congressional joint resolution for a plebiscite in Hawaii on the prohibition question has been signed by President Taft—but it was not signed on April 21, as previously reported. The joint resolution was not signed until April 26. Governor Frear received a cablegram yesterday from Delegate Kahio, which reads:

"Senate joint resolution unamended approved twenty-sixth. KUHIO." The Bulletin on April 21 published a purported cablegram from its Washington correspondent, "Monk," to the effect that the joint resolution had been signed by the President that day. The Advertiser, taking the Bulletin's "cablegram" at its face value, republished the story. It now appears that the "Monk" cablegram was a fake, or else a mighty bad piece of newspaper work by Mr. Monk, who succeeded in making

MONUMENT IS CLEANED FOR THREE DOLLARS

Promotion Committee's Bill for Job Formerly Costing Many Thousands.

Three dollars is the total cost of cleaning the famous Kona monument at Kailua-Kona, Hawaii, according to a report received by the promotion committee yesterday afternoon. The members of the committee, which met yesterday afternoon, were told that the monument, which was built by the Hawaiian government, had been cleaned by a private contractor for a sum of many thousands of dollars.

on knees of the community, for the resolution was not signed until five days after he sent his cablegram.

However, the resolution has been signed at last and is now law, and the special section to decide whether or not the monument should be cleaned is now in effect.

For many years the British government has been after the Kona monument, which was erected to mark the place where the famous British navigator Captain Cook landed in 1779. The monument was built by the Hawaiian government, and the British government has been after it for many years.
